### **Curtain Application Questionnaire**

Thank you for your recent request. To help me provide information on the appropriate model of curtain, could you please answer these questions?

What type of project is it? (Dredging, Construction, Runoff/Debris Control)

What is the duration of the project?

What is the body of water? (calm lake/pond, moving river/stream, near-shore ocean)

Data on the water conditions:

What is the wave height?

What is the current/flow rate?

What is the wind velocity in the area?

What is the water depth?

What is the length and depth of curtain you need?

When do you need to have the curtain installed?

I look forward to being of service.
